# Quality Workmanship, Quality Products.

## COMPANY HISTORY

### Count On Us!

Michael Sanfratello started Advanced Wiring Solutions in 1998 with one major objective: to become a premier low voltage contractor in the Chicago land area and maintain high levels of customer service while observing strict adherence to industry standards.

Advanced Wiring Solutions (AWS) provides innovative systems and cabling solutions tailored to fit your needs by offering a consistent quality of service, rapid response time, and quality of workmanship, all while utilizing the latest technology in the industry. AWS implements the highest industry standards, and is committed to customer relationships from the beginning of the project to the very end. We back our commitment with our 100% Service Guarantee called **TECHCONNECT™**.

- Proactive Safety Program (Low EMR)
- Continuous Industry Training Program
- Bonded and Insured
- Financially Secure
- Local 134 Union Contractor

## SAFETY

**At AWS, every effort is made in the interest of accident prevention to insure a safe job site.**

For each project, there is systematic identification, evaluation and prevention/control of hazards. Every employee has a responsibility with regards to safe working practices on the job site and safety is supported and enforced by the job supervisory staff. Safety regulations in effect assure the health and safety of each employee, fellow workers, anyone authorized to be on the job site and the public.

## TECHCONNECT™

### Our Client Support Guarantee

Our **TECHCONNECT™** Support System was developed specifically to act as a performance guide. AWS can thereby fulfill our commitment to satisfactory customer relationships by offering a 100% service guarantee and providing piece of mind to our customers by avoiding problems and delays often associated with designing, installing and maintaining low voltage systems and solutions.

To deliver the highest quality product, AWS employs only highly qualified low voltage technicians that are union trained and safety certified. With skilled labor, an experienced and vested supervisory staff, and years of industry knowledge, AWS and the **TECHCONNECT™** Support System guarantee that each job will be performed to specifications tailored to fit specific needs and that no details will be overlooked. For full details on our program see our **TECHCONNECT™** brochure.

# QUALITY

***Meets the highest industry standard to ensure your system works in a seamless fashion.***

You can count on Advanced Wiring Solutions for consistent quality. Our rigid quality standard meets or exceeds industry requirements and our customer's expectations.

We follow:

- Standard telecommunication installation practices
- Current TDM manual's BISC1 standards
- All federal, state and local electrical and building codes
- Federal and state OSHA requirements.

# CREDENTIALS

***Impeccable — certified, insured and bonded for cost-effective turnkey solutions to keep your business connected.***

Advanced Wiring Solutions is a certified installer and provider for leading companies offering low voltage and fiber optics products and systems to meet your communications needs.

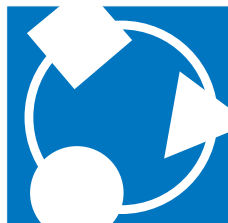

Our affiliations and professional alliances include: ASA Chicago, NECA, BISC1, Local 134 IBEW, Electrical Contractors Association, Chicago and Alsip Chambers of Commerce and the Better Business Bureau.

The AWS management staff consists of highly experienced experts that are dedicated to consistently performing at the very top of the industry standards by delivering projects that are on-time, within budget, and performed safely. Our IBEW local 134 trained technicians are certified to install and maintain a variety of low voltage systems and solutions that fit your business needs for voice, data and fiber optics.
